VI International Scientific-Practical Conference

"Information Technologies for Education, Science and Technics"

ITEST-2022

Cherkasy
May 19-21, 2022

First Call for Papers

Dear scientists, teachers, doctorate students, students!

VI International Scientific-Practical Conference
"Information Technology for Education, Science and Technics"
(ITEST-2022)
invites you to
Cherkasy State Technological University
on
May 19-21, 2022

The aim of ITEST-2022 is to stimulate the research in the field of information and communication technologies (ICT), highlight emerging ICT implementations in research, higher education, healthcare, and technology, promote exchanging scientific information and practical achievements in this field, establish closer relations between universities and scientific institutions of different countries, encourage young people to scientific research.

The conference committee invites you to actively participate in discussions, present your reports, and exhibit your own software, electronic, and information resources.

Conference issues
• Theoretical and practical aspects for creating and optimizing modern information and communication systems
• System information technologies in complex systems modeling
• Information technologies in engineering and robotics
• Information and communication technologies in management
• Information technologies in intelligent computing
• Information and communication systems and networks
• Information security
• Information and communication technologies in scientific research
• Computer modeling and information systems in economics
• Computer modeling in physical and chemical processes
• Information systems in medicine
• Information and communication technologies in higher education
• Training IT Experts in universities

Conference languages
English, Ukrainian, Russian, German, Polish.

Types of conference participation
Plenary report, section report.
Real-time broadcasting for plenary and breakout sessions will be provided.

Conference materials
Conference proceedings will be issued in both printed and electronic versions prior to the conference and will feature the papers recommended by the program committee.

Participation in the conference
To include a report recommended by the program committee in the conference program and receive an invitation, the participant must register and submit to the organizing committee through the resource https://easychair.org/:
- application for participation and the text of abstracts (according to the requirements) at the link: https://easychair.org/my/conference?conf=itest2022
- pay the registration fee.

Participants shall be awarded a **certificate of participation** in electronic and printed form.

Registration fee
Participants from Ukraine – **250 UAH**, international participants – **10$**.

Publication of extended articles
The authors of research papers included into the conference program will be able to submit complete and original articles in English. These articles will be published in a separate issue of **Springer Lecture Notes in Computational Science and Engineering** (https://www.springer.com/series/3527). The series "Lecture Notes in Computational Science and Engineering" has ISSN and is indexed in Scopus (quartile Q2).
A template for full-text articles and recommendations for the authors is found on the conference website at: https://itest.chdtu.edu.ua.

Submission of a full-text article is also carried out by the link:
https://easychair.org/my/conference?conf=itest2022

Additional fee for Springer article processing – **250 UAH** for participants from Ukraine, **10$** for international participants**.**

Important dates
- Submission dates for applications and abstracts by — **April 1, 2022**
- Notification of paper being accepted on the conference program by — **April 15, 2022**
- Article submission deadline by — **April 30, 2022**
- Registration fees by — **May 1, 2022**
- Sending out conference invitations — **May 10, 2022**
- Notification of acceptance for the submitted articles — **May 15, 2022**
- Articles publication fees by — **May 18, 2022**
- Conference starts on — **May 19, 2022**

Organizing Committee address
Cherkasy State Technological University, Department of Computer Science and Systems Analysis, 460 Shevchenko Blvd., 18006, Cherkasy, Ukraine
Phone: +380686050366
